Astra Slide 22mm

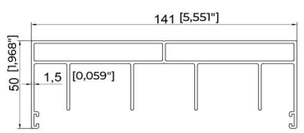
Sistem Glisant din Sticla Termopan – Astra Slide

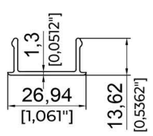
Astra Slide este un sistem glisant premium Astra Shading, destinat inchiderii teraselor, fatadelor vitrate si altor spatii exterioare care necesita protectie, lumina naturala si izolatie termica superioara. Proiectat pentru utilizare intensiva in medii rezidentiale si comerciale, sistemul integreaza sticla termopan securizata, profile din aluminiu vopsite electrostatic si feronerie de siguranta pentru o experienta de utilizare silentioasa si durabila.

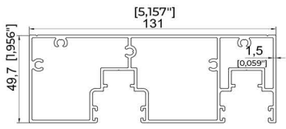
Glisare pe 4 Sine – Configurabil pana la 8 Panouri

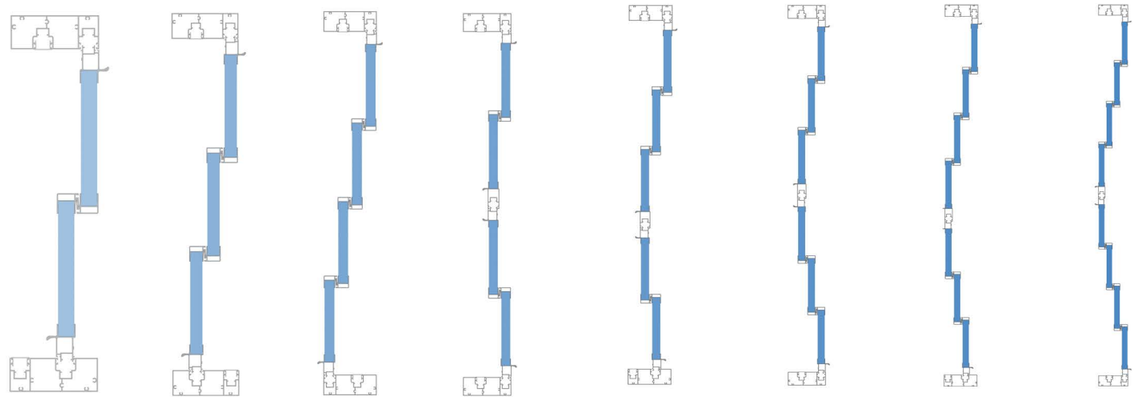
Sistemul este prevazut cu 4 sine paralele, ceea ce permite glisarea fluida a 2 pana la 8 panouri din sticla. Fiecare panou se poate deplasa individual, oferind o flexibilitate excelenta in configurarea deschiderii si in ventilatia controlata a spatiului.

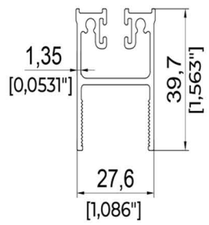
Rulmentii de inalta calitate si sina ranforsata garanteaza o glisare lina, fara vibratii sau blocaje, chiar si in cazul panourilor mari si grele.

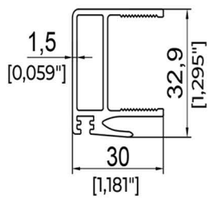


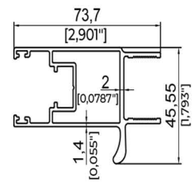


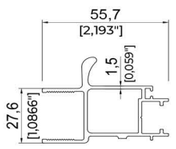


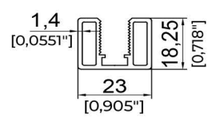
Detalii Tehnice


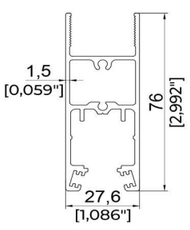


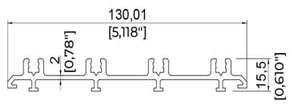


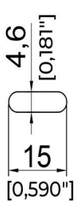


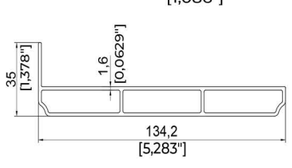












Structura: Aluminiu 6063 T5 extrudat, vopsit in camp electrostatic
Sticla: Termopan securizat 22 mm (4-14-4), transparenta sau mata
Sine glisare: Sistem cu 4 canale paralele, glisare fluida individuala
Insertie sina: Insertie de inox in sina inferioara pentru rezistenta la uzura si glisare silentioasa
Latime sistem: pana la 8000 mm
Inaltime maxima: 3000 mm
Latime recomandata panou: 800 – 1200 mm
Etanseitate: Garnituri si perii pentru protectie impotriva intemperiilor
Sistem de inchidere: Manere incastrate in toc, cu cheie, pentru siguranta si design minimalist
Glisare: Rulmenti de precizie si profile inferioare ranforsate
